

Gate Handle Detail: Gripple right against the corner post, loop of wire goes back through the gripple, loop hooks into existing gate handle hook, the other end of the handle gets attached with wire.

SUPPLIES

- 1 Fence Charger (6 or 12 V)**
Mount the Fencer on a post placed inside the fence where the on/off toggle is easy to reach without getting shocked. Test regularly to ensure 5000V minimum output.
- 2 Gripples**
Gripples provide tension on the fence lines.
- 3 Gate handles**
These are used to create an entry gate.
- 4 15 gauge wire**
Used for the fence and a piece to join three wires together to complete the circuit.
- 5 Sturdy corner posts with holes or insulators**
- 6 Side posts every 8 ft (approx.)**
- 7 Ground Rod (Use at least 1, or up to 3)**
- 8 Cheap bacon**
The bacon is used as bait
